

H1N1 UPDATE

FREE H1N1 Swine Flu vaccines provided by Casper-Natrona County Public Health Department will be available to the following people:

1. Pregnant women.
2. Children aged 6 months to 24 years.
3. People who live with or care for children younger than 6 months of age.
4. Healthcare and emergency medical services personnel, and
5. People 25 through 64 who are at higher risk for complications of H1N1 and have a chronic illness such as diabetes, asthma, or neurological disorders.

All children 18 and younger must be accompanied by a parent or legal guardian.

Immunization records are not needed to get this vaccine.
