

MEDALLION OF EXCELLENCE

Literate Students

Erin Jackson
First-Grade Teacher, Evansville Elementary

“I believe her goal setting has been instrumental in helping our Title I students become more proficient in their literacy skills. One way she has done this is to work with her grade level in developing kindergarten and first grade ‘benchmarks’ for success. ... Last spring, our kindergarten classes were finally competitive with the rest of the district in reading.” -- Donna Mathern

“Erin often acted as a peer mentor, helping support me with her expertise. I might not have survived without her phone number on my speed dial! She helped push me towards reaching my full potential as a teacher.” -- Noelle Clark
